

The IBEX Hand Strap

The IBEX Hand Strap has been specifically designed to fit perfectly onto either the IBEX FF or FP Electric Trimmers to provide a comfortable and secure grip. It is fully adjustable and will mould to any sized hand.

The strap allows the operator to flex and release their grip without having to put the tool down. The IBEX Hand Strap also enables a stronger grip on the tool improving control and allowing precision cutting.

The hand strap can also assist in preventing Carpel Tunnel Syndrome thanks to the ability to let the user loosen grip at will.

Hygienic and constructed from hard-wearing PVC, this strap is built to last. The IBEX hand strap is the ideal way to increase your comfort while cutting.

IBEX Thumb Rest

The IBEX Thumb Rest is an optional attachment which fits either the IBEX Electric or Pneumatic Trimmer to improve the comfort of your IBEX Trimming System.

The ergonomic construction of the IBEX Thumb Rest fits perfectly to the contours of the operators hands helping to alleviate strain and tension through the hand and forearm muscles during continued use. The IBEX Thumb Rest reduces cramping and fatigue allowing operators to work for extended periods without stoppages.

Constructed from corrosion resistant stainless steel the IBEX Thumb Rest is extremely long-lasting and durable. Available in both right and left hand variants and with 6 different positions, the IBEX Thumb Rest will suit any user.

Benefits

- Operator can release grip on tool and flex hand without letting go of the tool
- Assists in preventing Carpel Tunnel Syndrome
- Provides a stronger, more comfortable grip on the trimmer
- Easily adjustable strap for any hand size
- Quality construction with hard-wearing materials

Features

- New, ergonomic design
- Left and right hand options
- New frame lock supplied with Thumb Rest
- Made of corrosion resistant stainless steel
- 6 different positions available
- Improved comfort
